

# MULTIPLO **one**

**MULTIPLO one** is a multipurpose fabric lightbox display specifically designed to offer solutions in communicating messages to customers wherever they are.

What makes this display quite unique are their modularity and adjustability. With just a simple change in positioning and by adding a few components, the existing banner display can be transformed into a variety of backdrop sizes from a booth to a complete exhibition stand in just a few moves.

Being easily assembled, tools free with no technical knowledge required, Multiplo One can be transported in a convenient trolley case.

# Backdrop

MULTIPLO **one**

By adding the bases to your frames, you can create the unique Multiplo backdrops that work as floor standing displays. Their flexible plugin system is based on light-weight aluminum profiles covered with digital fabric prints and LED lighting. Moreover, they are modular which means that they change sizes easily. Ideal for events, shopfitting, exhibition and generally wherever there is a need for BTL promotion. They bring out high-quality images and boost your promotional activities. They can be easily transferred to take them with you whenever and wherever needed. Backdrops available in standard and custom sizes.

# Wall mounting

By adding the specific components, you can transform your frame to a wall-mounted display application for decoration, signage or branding. Ideal for retail outlets, building entrances, restaurants, hotels, hospitals, medical centers, office or home decoration and general use wherever there is a need for advertisement or decoration. Multiple wall panels can offer you a unique 3D visual experience as they have no visible frame and can be illuminated or not. What makes them unique is their easy set-up and set down.

# Hanging

Hanging panel displays are ideal for shop-fitting and decoration. They can be easily mounted on the ceiling with wire ropes. An extraordinary way of decorating a shop window. Their quick and easy assembly as well as their modular system enables them to be adjustable and flexible in any change needed. Plus! They are reusable which means that with a new print you can support a new branding activity in no time. New printing, new communication activity!

# Ceiling

Display for ceiling suspension. Change the components in your frame and transform it into a unique ceiling panel. Ideal for signage and decoration purposes in exhibitions, conferences, shopping centers, events, lobbies, stores or any other space that needs a unique element to stand out. An impressive way for communicational endeavours in places with high traffic. Their LED lighting enhances your message even further. With the easy change of prints, you can change the decoration of your space and create a new environment. Plus! Multiplo ceiling panels are an innovative way for an extra lighting element. Create unique and welcoming spaces with Multiplo ceiling panels and grasp everyone's attention.

# Exhibition Stand

MULTIPLO **one**

Reusable exhibition stands and booths for trade fairs with the innovative Multiplo One. Ideal to meet all your communication needs and strengthen your presence! The system is expandable and adaptable to any available space at any exhibition center. It consists of individual Multiplo One panels, which can compose different booth designs and sizes. Set up in only a few hours with no specific technical knowledge required. What makes these exhibition stands unique are their quick and easy set-up and set down as well as their sustainable nature. All the panels are not only high-quality, but also reusable.
