Back Lighting LED Bars

Removable fabric

Description

Multiplo LED Wall Panels 49 are single-sided light boxes. Ideal for in-store merchandising, decoration, advertisement or wherever there is a need for promotion. They consist of a 49mm thick aluminum profile that is not visible from the front, digital fabric printing that changes very easily, and LED lighting. Aluminum comes in silver anodized color and there is the possibility of painting in any RAL color. The LED backlight highlights high-quality images and enhances communication and advertisement endeavors. Available in standard dimensions and custom upon request.
